

<b>Name:</b>	Tristan Shawn Alforque	<b>Date:</b>	22/08/2023
<b>Program:</b>	CPE III	<b>Section:</b>	CPE143L.A361

**Intended Learning Outcomes:**

1. Use simple and advanced styling methods such as fonts, colors, background images, and opacity.
2. Utilize positioning and pseudoclasses.

Duplicate (as identical as possible) the following website using HTML5 and CSS3 elements:

- Remove CPE104L and CPE121L as menu items and include CPE107
- For all "Inserts", place actual images and necessary texts. Design your website properly.

## A Complete CSS Website

Utilize a different color scheme but make sure they complement one another. Fill in the necessary details as instructed in the sections of the webpage.

### Findings and Observations:

This Laboratory Task is a test that allows us to explore more into the potential careers that we will apply in the near future. Furthermore, it was insightful knowing how the website that we use today were possibly constructed and coded.
